

# CLOUDY with a chance of MEATBALLS

## SPAGHETTI DROP

### What You Will Need

This game requires a batch of cooked spaghetti and a bottle for each team. Make sure the spaghetti has been rinsed thoroughly so it is not too sticky to handle and leave it in a pot of water to keep it from drying out and sticking together.

### How To Play

To play, divide the players into equal teams. One player at a time from each team will take turns attempting to drop four strands of spaghetti into their team bottle, one strand at a time. The strands cannot touch the bottle and must be dropped from above the rim — not lowered in. Each player can use as many strands as they need, but they cannot pass their turn to the next player on their team until they have successfully dropped four strands into the bottle. The first team to cycle through all of their players is the winner!
